Contents

VOLUME 34, NUMBER 1, JANUARY 1995

A. R. O. Chapman. Functional ecology of fucoid algae: twenty-three years of progress (Phycologia Reviews 14) 1–32

R. G. Sheath and A. Whittick. The unique gonimoblast propagules of *Batrachospermum breutelii* (Batrachospermales, Rhodophyta) 33–38

B. Tyrrell and H. W. Johansen. Reproductive and regenerative strategies of *Lithothrix aspergillum* (Corallinales, Rhodophyta) in southern California 39–44

T. Ichimura and F. Kasai. Morphological variation and zygotic defective mating-type plus in a population of *Closterium ehrenbergii* (Desmidiales, Chlorophyta) from Boest Brook, Denmark 45–50

D. W. Keats and Y. M. Chamberlain. *Heydrichia groeneri* sp. nov.: a new species of crustose coralline alga (Rhodophyta, Sporolithaceae) from South Africa and Namibia 51–57

S. Suda and M. M. Watanabe. Life cycle of *Pseudocarteria mucosa* (Korschikov) Ettl (Volvocales, Chlorophyta) 58–64

U. Sorhannus, F. Gasse, R. Perasso and A. Baroin Tourancheau. A preliminary phylogeny of diatoms based on 28S ribosomal RNA sequence data 65–73

D. G. Mann and A. J. Stickle. Sexual reproduction and systematics of *Placoneis* (Bacillariophyta) 74–86

M. Montresor. *Scrippsiella ramonii* sp. nov. (Peridiniales, Dinophyceae), a marine dinoflagellate producing a calcareous resting cyst 87–91

Announcements 92

Society News 92

VOLUME 34, NUMBER 2, MARCH 1995

J. A. Raven. Photosynthetic and non-photosynthetic roles of carbonic anhydrase in algae and cyanobacteria (Phycological Reviews 15) 93–101

N. E. Aponte and D. L. Ballantine. *Aglaothamnion flexibile* sp. nov. and *Seirospora viridis* sp. nov. (Ceramiaceae, Rhodophyta) from Puerto Rico 102–112

M. Steentoft, L. M. Irvine and W. F. Farnham. Two terete species of *Gracilaria* and *Gracilariopsis* (Gracilariales, Rhodophyta) in Britain 113–127

H. L. J. Jones, P. Durjun, B. S. C. Leadbeater and J. C. Green. The relationship between photoacclimation and phagotrophy with respect to chlorophyll *a*, carbon and nitrogen content, and cell size of *Chrysochromulina brevifilum* (Prymnesiophyceae) 128–134

J. Larsen, H. Kuosa, J. Ikävalko, K. Kivi and S. Hällfors. A redescription of *Scrippsiella hangoei* (Schiller) comb. nov. — a 'red tide' dinoflagellate from the northern Baltic 135–144

M. Birkhead and R. N. Pienaar. The taxonomy and ultrastructure of *Chrysochromulina simplex* (Prymnesiophyceae) 145–156

K. W. Nam and Y. Saito. Vegetative and reproductive anatomy of some *Laurencia* (Ceramiales, Rhodophyta) species with a description of *L. maris-rubri* sp. nov. from the Red Sea . . 157–165

G. Hansen. Analysis of the thecal plate pattern in the dinoflagellate *Heterocapsa rotundata* (Lohmann) comb. nov. (= *Katodinium rotundatum* (Lohmann) Loeblich) 166–170

S. Janson, E. J. Carpenter and B. Bergman. Immunolabelling of phycoerythrin, ribulose 1,5-bisphosphate carboxylase/oxygenase and nitrogenase in the unicellular cyanobionts of *Ornithocercus* spp. (Dinophyceae) 171–176

Society News 177

VOLUME 34, NUMBER 3, MAY 1995

J. Reyes and J. Afonso-Carrillo. Morphology and distribution of nongeniculate coralline algae (Corallinaceae, Rhodophyta) on the leaves of the seagrass *Cymodocea nodosa* (Cymodoceaceae) 179–190

Francis R. Trainor and Rebecca Gladych. Survival of algae in a desiccated soil: a 35-year study 191–192

M. Kawachi and I. Inouye. Functional roles of the haptonema and the spine scales in the feeding process of *Chrysochromulina spinifera* (Fournier) Pienaar et Norris (Haptophyta = Prymnesiophyta) 193–200

Y. Suzuki, K. Kuma, I. Kudo and K. Matsunaga. Iron requirement of the brown macroalgae *Laminaria japonica, Undaria pinnatifida* (Phaeophyta) and the crustose coralline alga *Lithophyllum yessoense* (Rhodophyta), and their competition in the northern Japan Sea . 201–205

M. Yamaguchi, S. Itakura, I. Imai and Y. Ishida. A rapid and precise technique for enumeration of resting cysts of *Alexandrium* spp. (Dinophyceae) in natural sediments 207–214

Daiske Honda and Isao Inouye. Ultrastructure and reconstruction of the flagellar apparatus architecture in *Ankylochrysis lutea* (Chrysophyceae, Sarcinochrysidales) 215–227

R. Kuhlenkamp and R. G. Hooper. New observations on the Tilopteridaceae (Phaeophyceae). I. Field studies of *Haplospora* and *Phaeosiphoniella*, with implications for survival, perennation and dispersal 229–239

Adriana Zingone, Jahn Throndsen and Gandi Forlani. *Pyramimonas oltmannsii* (Prasinophyceae) reinvestigated 241–249

Book reviews 251–253

In Memoriam 255–256

VOLUME 34, NUMBER 4, JULY 1995

B. L. Siemer and P. M. Pedersen. The taxonomic status of *Pilayella littoralis*, *P. varia* and *P. macrocarpa* (Pilayellaceae, Fucophyceae) 257–266

John A. Raven, John Beardall, Andrew M. Johnston, Janet E. Kübler and Irene Geoghegan. Inorganic carbon acquisition by *Hormosira banksii* (Phaeophyta: Fucales) and its epiphyte *Notheia anomala* (Phaeophyta: Fucales) 267–277

K. D. Barrow, U. Karsten, R. J. King and J. A. West. Floridoside in the genus *Laurencia* (Rhodomelaceae: Ceramiales) – a chemosystematic study 279–283

M.-J. Chrétiennot-Dinet, C. Courties, A. Vaquer, J. Neveux, H. Claustre, J. Lautier and M. C. Machado. A new marine picoeucaryote: *Ostreococcus tauri* gen. et sp. nov. (Chlorophyta, Prasinophyceae) 285–292

M. Kajimura. *Predaea kuroshioensis* sp. nov. (Nemastomataceae, Rhodophyta) from Japan . . 293–298

Alex Sivan and Shoshana (Malis) Arad. A mutant of the red microalga *Porphyridium* sp. (Rhodophyceae) resistant to DCMU and atrazine 299–305

John D. Dodge. Thecal structure, taxonomy, and distribution of the planktonic dinoflagellate *Micracanthodinium setiferum* (Gonyaulacales, Dinophyceae) 307–312

K. R. Roberts, K. Heimann and R. Wetherbee. The flagellar apparatus and canal structure in *Prorocentrum micans* (Dinophyceae) 313–322

K. Heimann, K. R. Roberts and R. Wetherbee. Flagellar apparatus transformation and development in *Prorocentrum micans* and *P. minimum* (Dinophyceae) 323–335

B. Santelices and V. Flores. Spermatangial sori on cystocarpic branchlets of species of *Gelidium* and *Pterocladia* (Gelidiales, Rhodophyta) (Research Note) 337–341

In Memoriam 343–345

Announcement 347

Society News 349

VOLUME 34, NUMBER 5, SEPTEMBER 1995

Sharon T. Broadwater, Joseph L. Scott, Steven P. A. Goss and Bill D. Saunders. Ultrastructure of vegetative organization and cell division in *Glaucosphaera vacuolata* Korshikov (Porphyridiales, Rhodophyta) 351–361

A. S. Harvey and Wm J. Woelkerling. An account of *Austrolithon intumescens* gen. et sp. nov. and *Boreolithon van-heurckii* (Heydrich) gen. et comb nov. (Austrolithoideae subfam. nov., Corallinaceae, Rhodophyta) 362–382

Gary W. Saunders and Gerald T. Kraft. The phylogenetic affinities of *Notheia anomala* (Fucales, Phaeophyceae) as determined from partial small-subunit rRNA gene sequences . . . 383–389

Leonard J. Dyck and Robert E. De Wreede. Patterns of seasonal demographic change in the alternate isomorphic stages of *Mazzaella splendens* (Gigartinales, Rhodophyta) 390–395

E. S. Silva and M. A. Faust. Small cells in the life history of dinoflagellates (Dinophyceae): a review 396–408

Per Juel Hansen, Torkel Gissel Nielsen and Hanne Kaas. Distribution and growth of protists and mesozooplankton during a bloom of *Chrysochromulina* ssp. (Prymnesiophyceae, Prymnesiales) 409–416

M. E. Apple and M. M. Harlin. Inhibition of tetraspore adhesion in *Champia parvula* (Rhodophyta) 417–423

Charles D. Amsler, Robert J. Rowley, David R. Laur, Langdon B. Quetin and Robin M. Ross. Vertical distribution of antarctic peninsular macroalgae: cover, biomass and species composition 424–430

Robert G. Sheath and Morgan L. Vis. Distribution and systematics of *Batrachospermum* (Batrachospermales, Rhodophyta) in North America. 7. Section *Hybrida* 431–438

Book review 439

VOLUME 34, NUMBER 6, NOVEMBER 1995

Ingo Maier. On the fine structure of flagellar hairs in the brown algae (Phaeophyceae) . . . 441–443

Marina Montresor. The life history of *Alexandrium pseudogonyaulax* (Gonyaulacales, Dinophyceae) 444–448

D. Kvaternik and J. Afonso-Carrillo. The red algal genus *Liagora* (Liagoraceae, Rhodophyta) from the Canary Islands 449–471

C. A. Scholin, G. M. Hallegraeff and D. M. Anderson. Molecular evolution of the *Alexandrium tamarense* 'species complex' (Dinophyceae): dispersal in the North American and West Pacific regions 472–485

Frans A. C. Kouwets. Comparative ultrastructure of sporulation in six species of *Neochloris* (Chlorophyta) 486–500

A. S. Mostaert, U. Karsten and R. J. King. Inorganic ions and mannitol in the red alga *Caloglossa leprieurii* (Ceramiales, Rhodophyta): response to salinity change 501–507

Ingo Höhfeld and Michael Melkonian. Ultrastructure of the flagellar apparatus of *Noctiluca miliaris* Suriray swarmers (Dinophyceae) 508–513

Santiago Fraga, Isabel Bravo, Maximino Delgado, José M. Franco and M. Zapata. *Gyrodinium impudicum* sp. nov. (Dinophyceae), a non toxic, chain-forming, red tide dinoflagellate . . 514–521

A. Chiovitti, M.-L. Liao, G. T. Kraft, S. L. A. Munro, D. J. Craik and A. Bacic. Cell wall polysaccharides from Australian red algae of the family Solieriaceae (Gigartinales, Rhodophyta): iota/kappa/beta-carrageenans from *Melanema dumosum* 522–527

P. Leukart and D. Hanelt. Light requirements for photosynthesis and growth in several macroalgae from a small soft-water stream in the Spessart Mountains, Germany 528–532

Satoshi Nagai, Yutaka Hori, Takehiko Manabe and Ichiro Imai. Restoration of cell size by vegetative cell enlargement in *Coscinodiscus wailesii* (Bacillariophyceae) (Research Note) . . . 533–535

Book review 536–537

In Memoriam 538–543

Subject and Author indexes 545–550
